

Interhospital Shuttle Service

SCHEDULING

Passenger safety and keeping to the schedule are important components of shuttle service. The schedule is tight and the driver cannot wait for riders or courier pick-up. Please be at the pick-up site a couple of minutes before the shuttle is due.

All schedule times are approximate, depending on rush hour and traffic and road conditions.

SEATING PRIORITY

Hospital staff, physicians, medical-related grad students doing research, and medical students on hospital-related business have seating priority.

Hospital staff or medical students going to or from work or class do not have priority, but are welcome if space permits.

In the early morning or late afternoon, the front seat(s) may be reserved until departure time for staff on staff business.

COURIER SERVICE

The shuttle will take any items that would normally be sent by outside mail or courier service. All items must have one of our labels attached – phone 604-875-4118 for information about labels.

“Rush” packages must be handed directly to the driver, and the recipient must be alerted to pick them up at their destination. Packages not picked up from driver will be taken to the mailroom at the end of the day.

For any packages sent to Children’s or Women’s Hospitals, the recipient **MUST** be phoned to pick up items at the shuttle.
