

**INFORMATION NOTE:** Distribution of incremental tuition revenue

**PREPARED FOR:** FoM Department Heads, School and Centre Directors

ISSUE: Amendment to Allocation of incremental tuition income for FY 2012-13

### **BACKGROUND:**

The Faculty of Medicine receives an annual incremental increase and/or decrease of tuition from the UBC Budget office as a part of the GPO funding model. This represents changes in tuition due to changes in enrolment and tuition over the previous year. The base tuition is already included in each departmental GPO allocation, and only the incremental increase and/or decreases remain to be distributed.

#### **ANALYSIS:**

- In August 2013, the FY 2012-13 budget model was restated for CFIS and CTLT. Some CFIS units were moved to the Faculty of Medicine. The total tuition of these CFIS units for FY 2012-13 was \$616,174. CTLT tuition allocation was dissolved into Medicine's Audiology, Pathology and Surgery departments. The total amount of CTLT units for FY 2012-13 was \$82,054. CTLT resulted in an incremental tuition increase of \$54,319 from FY 2011-12.
- Tuition relating to Rehabilitation Science programs was also reallocated to Occupational Therapy and Physical Therapy. Programs relating to Master of Science: Rehabilitations Sciences was redistributed to 50% OT and 50% PT; Phd in Rehabilitation Sciences was also redistributed to 50% OT and 50% PT; and Master of Rehabilitation was distributed to 100% OT.
