Title of proposal	
Priority area	
Proposed funding request amount (\$ per year)	
Keywords (10 max)	

Project description

What research activity will form the basis for this CFREF competition? Note: Incremental and small-step evolution of research objectives will not meet the objectives of the program, and proposals must include an interdisciplinary and intersectoral approach. (500 words max. Note: boxes only accept plain text, no bold, italics, underline, superscripts etc.)

Project team

Please list names and positions of up to 10 team members (confirmed and potential), including early career researchers. Describe how the team has worked together previously (400 words max).

What EDI considerations have been applied in assembling the team? How will EDI considerations be integrated in the research activity if the CFREF is successful? (250 words max.) For more information, refer to the [Additional Program Considerations](#) section of the CFREF program guidelines

Explain why your team is the best in Canada in this research area. How does this team compare to national and international groups working in related areas? Please identify competitor groups. (250 words max.)

Knowledge mobilization

List potential partners, if any (e.g., other institutions, private sector, international research institutions, public not-for-profit sectors in Canada or abroad) and indicate if you have worked with them previously. (125 words max.)

Describe how the team has engaged in knowledge translation, knowledge mobilization and/or commercialization? Please provide examples. What will be the impact of the team's activities? (250 words max.)

Does the team's research activity include [Indigenous research components and Indigenous ways of knowing](#)? If yes, please explain. If no, please provide a rationale explaining why Indigenous research components are not required in this proposal. (250 words max.)

Budget
