DAY USE ONLY

Remove items by end of day.

Ensure **clean** for next user.

For any issues see **Reception**.

LOCK:

All digits are set to 0 when locker is unlocked and ready for use.

Set 4 digit combination code. Code is a one-time use.

Close locker door and turn knob all the way to the left to lock.

Numbers are automatically scrambled and return to 0.

UNLOCK:

Put in 4 digit combination code.

Turn knob all the way to the right to unlock.

Locker is now open, and digits have been reset for next user.

Note: Combinations are one-time use. Code will automatically reset when unlocking locker. Input 4 digit combinations again to reuse locker and lock.
